Job of a Club Newsletter's Editor

The following comments were sent in by ACE 246, Rudy Viol.

Club newsletter don't just happen. As many people as may be willing to help with writing, typing, production and distribution, some one person must coordinate the process – or as happens often – do all or most of it. That person is titled "editor." The job is part cheerleader, part calendar watcher, part inventory, part creator, and part nag. Nagging productively is a fine art – and every editor must master it. Obtaining information and original writing for the newsletter often requires the editor to use gentle reminders, a bit of flattery, the implanting of a little guilt, and most helpful – nagging without being too offensive.

ACE AUCTION

The ACE Auction was a great success. Pending collection of bids, and payment of postage, etc., the ACE auction will put approximately \$200.00 net into the ACE treasury. A full report in August's newsletter.

ITS ONE BIG FAMILY.

ACE 1 is ACE 4's daughter, and ACE 2 is ACE 4's mother and ACE 1's grandmother. ACE 5 is ACE 4's uncle, and ACE 1's great uncle. ACE 141 is married to ACE 241; ACE 278, 279, 277 and 276 are daughters of ACE 274 who is married to ACE 275; and 271 calls ACE 256 "grandfather." (to be continued next month.)

GAD VIII

The vote is over with, and the ballots counted and recounted, and we have a winner. The one and only:

**ACE 80 – David E. Garrett
253A Crocker
Mt. Clemens, Michigan 48043**

There is no official theme or subject for 1994's GAD covers, however, ACE 80 collects covers pertaining to the State of Michigan. That might be a limited subject, but lets try and come up with something pertaining to Michigan – state bird is the Robin, state flower is the Apple Blossom, they have Lake Huron and Lake Michigan, also home of Paul B. and Babe the Blue Ox. They have wolverines – nickname the Wolverine State. Joined the union in 1837, about 58,000 square miles, capital is Lansing, and the home of the motor car industry. Michigan is known for the Apple Blossom Festival, the Tulip Blossom Festival, the Cherry Blossom Festival, ice fishing and choice duck and deer hunting. Michigan is divided into Upper and Lower Michigan, then they are divided into areas called the thumb, the palm, and the upper half of the lower half. They have a lot of Michiganders, snowmobiles and snow. The state is very friendly and delightful.

Remember to post your GAD covers to ACE 80 on 1 August 1994, and no one tells ACE 80 that he is the target until 1 August. Enjoy GAD VIII and don't forget to send a GAD cover to your regular exchanges, if possible.

ITS THE LAW IN MICHIGAN

Lansing: You can not chew gum while riding in any public transportation.

Alpina: You can not keep frozen meat on your window sill.

Wurthsmith: Women can not be seen in public without appropriate under garments.

Making ACE Ends Meet

Here is a new word game for ACE.....making ACE ends meet. Each of the words below is missing its first and last letters, which are identical. To make ACE Ends meet, write the missing letters on the space provided. When done correctly, the added letters for each one, when read down, will spell out one of the states that we have ACE members in. Clue - Ohio and Florida will not work.

HELLO STRANGERS

How did our "Hello Stranger" program turn out? Or did it? Or did the "Good Old Summer Time Fever" get to you, as my aunt use to say?

Comments by ACE 242

When I first entered the wonderful world of ACE, I kept hearing about the Ohio Connection. Then with the 1994 elections, I heard about the Florida Connection. Say what? ACE is a multi-location organization covering all of North

America, to include Canada now. Each and every paid up member has an equal voting voice in the running of ACE. There are no connections, Ohio, Florida or Arkansas. We do have several hard working ACE members in Ohio that spent a lot of time working for ACE. We should be thankful for their accomplishments. I hope that when the next elections come, you can say the same about the members in Florida that are currently serving ACE. The only connection allowed in ACE is an ACE wide connection that binds all of us together in our interests.

GO TELL IT TO THE MARINES.

Its July 1994, and for the first time in nine years, I am going to break an ACE tradition - and give a treasurer's report. The funds are maintained in MacDill Federal Credit Union in a separate account under my name.

 This is a great time to beg or nag. I need covers for posting the newsletter for August through December 1994.

I forgot: I know that is a rare event, but last month I forgot to thank ACE 266 for the covers. So for June and July 1994 - thanks to ACE 256, Dale Goble, we have great covers.
